7		16			15			

The normal rules of Sudoku apply. In addition, the digits in each inner shape (marked by dots) must add up to the number in the top corner of that box. No digit is repeated in an inner shape.

Remember that the numbers in each row, column and each 3x3 block must always add up to 45. ( $1+2+3+4+5+6+7+8+9=45$ )
